

ABOUT PADGETT GROUP

Founded in 1982, the Padgett Group develops long term client relationships by providing comprehensive technical services that improve a building's HVAC system performance, operational reliability, and energy efficiency. Located in Canton, Georgia, The Padgett Group is privately owned and operated. For more than thirty years, Padgett has successfully serviced Georgia's local businesses and communities.

The Padgett Group has customized a suite of comprehensive technical services to meet the operational and financial objectives unique to each of our clients. A primary focus on service has helped us to establish our reputation as the area's premier provider of full service offerings in the marketplace. Our commitment to our customer's success is best demonstrated by the fact that we still service the first customer the company ever had in 1982.

Padgett Group provides a customized Client Portal to ensure ease of access to real-time information related to Facility Assessments, Planned Maintenance, Energy Services, Building Automation and Project Services.

The Client Portal has proven to streamline communication and ensure accountability between our Executive Team, Operations Team and the Customer. As a browser-based software, the Portal can be accessed any time from any computer with an internet connection.
